

Site Visit Guidance

It is imperative that NSU remain vigilant in its efforts to ensure we provide appropriate care and a safer environment for our students and employees.

Please utilize self-assessment criteria prior to arriving at any NSU facility as outlined by the CDC at <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>.

Visitors are not permitted at any NSU location if experiencing any cold or flu-like symptoms, including fever or chills, coughing, shortness of breath or difficulty breathing, fatigue, sore throat, muscle or body aches, headache, new loss of taste or smell, congestion or runny nose, nausea or vomiting or diarrhea.

Do not visit NSU if you recently had known contact with an individual ill with COVID-19.

If making a site visit:

- Wearing a mask or face covering is optional on all NSU properties, with the exception of Puerto Rico where local executive orders must be followed.
- Make every effort to minimize touching surfaces
- Refrain from shaking hands
- Practice correct hand hygiene per the CDC recommendations

Note: The Shuttle Service follows TSA guidance and masks may be required on the shuttle.

Vendors are expected to educate their staff on the importance of following the CDC recommended guidelines for prevention.

If after visiting NSU, you test positive for COVID-19, we ask that you please update us at COVIDcase@nova.edu so that we can make others aware of their possible exposure.

For more information on visiting NSU and our COVID-19 related policies, visit <https://www.nova.edu/coronavirus/index.html>.
