

Funding Opportunities for Minority Health & Minority Studies

Sponsor	Grant/Program	Description	Deadline
American Cancer Society	AHEAD (Advancing Health Equity and Addressing Cancer Disparities) Awards	Fund pilot, first-in-field, innovative strategies that increase quality cancer screening, clinical trials, and cancer care closer to home. Will fund exploratory, novel research studies that seek to improve access to quality cancer screening and/or cancer care by bringing technologies to individuals rather than requiring travel to health care facilities.	4/3/2023
Russell Sage Foundation	Race, Ethnicity, and Immigration	Research that examines the roles of race, ethnicity, nativity, legal status—and their interactions with each other and other social categories—in the social, economic, and political outcomes for immigrants, U.S.-born racial and ethnic minorities, and native-born whites.	LOI due 5/3/2023 (full app due 8/9/23)
William T. Grant Foundation	Research Grants on Reducing Inequality	Supports research to build, test, or increase understanding of programs, policies, or practices to reduce inequality in the academic, social, behavioral, or economic outcomes of young people ages 5-25 in the US. Prioritize studies that aim to reduce inequalities that exist along dimensions of race, ethnicity, economic standing, language minority status, or immigrant origins. Two grant programs: 1) Major research grants: \$100,000-\$600,000 for 2-3 years, 2) Officers' research grants: \$25,000-\$50,000 for 1-2 years.	5/3/2023
Spencer Foundation	Racial Equity Research Grants	Supports education research projects that will contribute to understanding and ameliorating racial inequality in education .	Intent to Apply due 5/16/2023 (full app due 6/14/23)
NIH	Health Care Models for Persons with Multiple Chronic Conditions from Populations that Experience Health Disparities: Advancing Health Care towards Health Equity (R01)	This initiative will support innovative, collaborative, and multi-disciplinary research designed to study the effective adaptation, integration, and implementation of recommended guidelines of care of persons with multiple chronic conditions (MCCs) from populations that experience health disparities .	6/5/2023 (additional deadlines: 2/5/24, 6/5/24)

NIH	Effectiveness of Implementing Sustainable Evidence-Based Mental Health Practices in Low-Resource Settings to Achieve Mental Health Equity for Traditionally Underserved Populations (R01)	Develop and test the effectiveness of strategies for implementation and sustainable delivery of evidence-based mental health treatments and services to improve mental health outcomes for underserved populations in under-resourced settings in the United States.	6/5/2023 (additional deadlines: 2/5/24, 6/5/24)
NIH	NIDA REI: Research at Minority Serving Institutions on Neurocognitive Mechanisms Underlying the Impact of Structural Racism on the Substance Use Trajectory (R61/R33)	Solicits applications from minority serving institutions for clinical research applications that are exploratory/developmental in nature and seek to parse the complex effects of structural racism and investigate their impact on neurocognition , with an emphasis on reducing substance use disorder (SUD) risk and informing preventative interventions.	11/14/23 (additional deadline: 11/14/24)
Centers for Medicare and Medicaid Services (CMS)	Minority Research Grants Program	Supports researchers at minority serving institutions that are exploring how CMS can better meet the health care needs of racial and ethnic minorities, people with disabilities, sexual and gender minorities, and rural populations.	Rolling
Commonwealth Fund	Grants	Support independent research on health care issues to improve health care practice and policy. Current programs are: Health Care Coverage, Access, and Tracking; Health Care Delivery System Reform; Advancing Health Equity; Controlling Health Care Costs; International Health Policy and Practice Innovations; Advancing Medicare; Medicaid; and Federal and State Health Policy. Recently launched new initiatives focused on Behavioral Health, Public Health Modernization, and Climate Change and Health Care.	Rolling
Robert Wood Johnson Foundation	Evidence for Action: Innovative Research to Advance Racial Equity	Prioritizes research to evaluate specific interventions (e.g., policies, programs, practices) that have the potential to counteract the harms of structural and systemic racism and improve health , well-being, and equity outcomes.	Rolling
