Greetings,

The Center for HIV and Research in Mental Health (CHARM) at the University of Miami is pleased to announce a Request for Proposals for projects in HIV/AIDS and mental health research. CHARM's Developmental Awards Program includes three types of awards for a one-year funding period which are described below.

- **CHARM Pilot Awards** provides research support to conduct community-engaged research projects for generation of preliminary data to increase competitiveness for future extramural HIV/AIDS and mental health research funding (\$45K)
- **CHARM Scholar Awards** provides salary (minimum of 25% principal investigator effort), research, and career development support for promising early career investigators aiming to transition to independence as HIV/AIDS and mental health researchers. Projects usually involve doing a secondary data analysis project with existing data and/or data being collected as part of a parent study. (Up to \$45K)
- **CHARM Equitable Implementation Science (EIS) Core Microgrants** support the development of partnerships between investigators and implementers for equitable implementation research in HIV and mental health (\$5K)

Eligibility: Applicants should be Early-Stage Investigators (or those new to HIV/Mental health - Pilot Awards only) from the CHARM network (University of Miami, Florida State University, Florida International University, or Nova Southeastern University)

The CHARM Developmental Core will also host two informational sessions upon the release of the RFA to describe the Award process, priority areas, offer guidance, and answer any initial questions. The informational sessions for this cycle will be on April 19, 2024, 1:30 – 3:00 PM EST and May 1, 2024, 3:00 – 4:30 PM EST. The sessions will take place through Zoom.
