

Funding Opportunities for Early Career Researchers (Private)

This is the second of two funding alerts with opportunities specially for early-career researchers. Those below are opportunities from private organizations. See yesterday's funding alert email with federal funding opportunities.

Sponsor	Grant/Program	Description	Deadline
William T. Grant	Scholars Program	Supports early-career researchers in two distinct focus areas: 1) Reducing inequality in youth outcomes , and 2) Improving the use of research evidence in decisions that affect young people.	Letters due 6/14/2023 (full app due 7/5/23)
Damon Runyon Cancer Research Foundation	Innovation Award	Designed to provide support for early-career researchers who are exceptionally creative thinkers with "high-risk/high-reward" ideas that have the potential to significantly impact our understanding of and/or approaches to the prevention, diagnosis, or treatment of cancer .	7/6/2023
Elsa U. Pardee Foundation	Grant	Funds projects for a one-year period which will allow the establishment of capabilities of new cancer researchers or new cancer approaches by established cancer researchers. Research must be directed toward identifying new treatments or cures for cancer .	8/31/2023 (additional deadlines: 12/15/23, 4/30/24)
Thrasher Research Fund	Early Career Awards	The Fund is open to a wide variety of research topics. We do not focus on a particular disease, but all our funded projects deal directly with children's health .	Concept paper due 9/12/2023 (full app due 11/6/23)
American Psychological Foundation	David H. and Beverly A. Barlow Grant	Funding up to \$7,500 to support innovative basic and clinical research on anxiety and anxiety related disorders . Must be an early career researcher (no more than 10 years postdoctoral).	9/15/2023
Whitehall Foundation	Grants-in-Aid	For researchers at the assistant professor level who experience difficulty in competing for research funds because they have not yet become firmly established. Supports researchers in life sciences doing basic biological research, namely in neurobiology . Awarded for a one-year period and does not exceed \$30K.	LOI due 10/1/2023 (additional deadlines: 1/15/24, 4/15/24)
American Psychological Foundation	Scott and Paul Pearsall Grant	Up to \$10K supports early career work that seeks to increase the public's understanding of the psychological pain and stigma	10/1/2023

		experienced by adults living with visible physical disabilities, such as cerebral palsy.	
Klingenstein Philanthropies	Neuroscience Fellowship	The research should have relevance for understanding the mechanisms underlying any of a wide range of neurological and behavioral disorders , and it may lead to improvements in the diagnosis and treatment of these disorders. Must be an early-career investigator to apply.	10/1/2023 <i>(additional deadline: 2/25/24)</i>
American Cancer Society	Research Scholar Grant	For faculty less than 10 years out from their first appointment to pursue questions across the cancer research continuum , such as etiology, obesity/health eating/active living, screening/ diagnosis, treatment, survivorship, and health equity.	10/15/2023 <i>(additional deadline: 4/1/24)</i>
American Society for Mass Spectrometry	Research Award	Research awards promote the research of academic scientists within the first four years of an their first appointment. The awards, in the amount of \$35,000 each, support research using mass spectrometry .	11/30/2023
Association for the Advancement of Blood & Biotherapies	Early-Career Scientific Research Grants Program	Awards grants for investigator-initiated original research in all aspects of blood banking, transfusion medicine, and biotherapies .	12/1/2023
Radiological Society of North America (RSNA)	Research Scholar Grant	Supports junior faculty members who have completed resident and fellowship programs, but haven't been recognized as independent investigators. Any area of research in the radiologic sciences is eligible for funding.	1/19/2024
